### **TITLE**

Fieldwork reflections on the realities of decolonizing ethnography in Fijian iTaukei (Indigenous) communities

### **DESCRIPTION**

In this workshop, I will discuss some of the challenges involved in decolonizing my research methods in my five field sites across Viti Levu island. I will specifically discuss (1) my use of the 'Fijian Vanua Research Framework' (FVRF), (2) some new methods that I propose as a complement to the FVRF, and (3) my perceived successes, failures and 'lessons to learn' in the arduous research decolonizing process.
